Volume 17, Number 1 January 1983

Editorial: Even better MCQ books?	1
N. GIVNER and K. HYNES. An investigation of change in medical students' ethical thinking	3
I. M. RICHARDSON. Consumer views on the medical curriculum: a retrospective study of Aberdeen graduates	8
H. G. SCHMIDT. Problem-based learning: rationale and description	11
F. T. C. HARRIS, D. A. McSWIGGAN, ROSALINDE HURLEY and JENNIFER A HIBBERD. Evaluation of a course on medical microbiology for non-medical graduate scientists from medical microbiological laboratories	17
A. C. HARPER, WENDY B. ROY, G. R. NORMAN, CAROL A. RAND and J. W. FEIGHTNER. Difficulties in clinical skills evaluation	24
R. L. KIRBY. Running commentary recorded simultaneously to enhance videotape as an aid to learning interviewing skills	28
H. J. WRIGHT, I. M. STANLEY and J. WEBSTER. The assessment of cognitive abilities in clinical medicine	31
L. M. EPSTEIN, A. TAMIR, T. SPENSER and S. PERLMAN. The Community Project: the teaching implications of applied epidemiology	39
W. C. TAYLOR and C. PARK. Discount for quantity: the production of multiple patient management problems	45
J. B. SKINNER, G. KNOWLES, R. F. ARMSTRONG and D. INGRAM. The use of computerized learning in intensive care: an evaluation of a new teaching program	49

CHRISTEL A. WOODWARD and BARBARA M. FERRIER. The content of the medical curriculum at McMaster University: graduates' evaluation of their preparation for postgraduate training	54
Book reviews	61
Audiovisual reviews	63
Books received	65
News and notes	66
Correspondence	67

Volume 17, Number 2 March 1983

Editorial: Aims of the medical school in relation to motivation: practice, not preaching, creates motivation	69
BARBARA M. FERRIER and CHRISTEL A. WOODWARD. Does premedical academic background influence medical graduates' perceptions of their medical school or their subsequent career paths and decisions?	72
K. R. MITCHELL and MONICA HAYES. Student characteristics on entry to an innovative medical programme	79
A. A. OLUKOYA. Attitudes of medical students to medical ethics in their curriculum	83
SONIA M. G. VEIGA, M. D. MILLER and J. HAMMOCK. Developing a model for clinical and basic science teaching skills	87

J. S. FOX. The multiple choice tutorial: its use in the reinforcement of fundamentals in medical education	90
PATRICIA FLEETWOOD-WALKER, P. P. MAYER and B. ISAACS. A new approach to course development in geriatric medicine	95
D. GALINSKY, R. COHEN, C. SCHNEIRMAN, Y. GELPER and Z. NIR. A programme in undergraduate geriatric education: the Beer Sheva experiment	100
ELIZABETH A. EGERTON. Career preference enquiry among Queen's University medical undergraduates and graduates: a follow-up	105
W. J. A. HALL-TURNER. An experimental assessment carried out in an undergraduate general practice course (OSCE examination)	112
ASME Medical Education Booklet No. 16	
J. ANDERSON. Hand-scoring of multiple choice questions	121
Book reviews	134
Books received	136
News and notes	137
Correspondence	138

**Volume 17, Number 3
May 1983**

H. J. WALTON. The place of primary health care in medical education in the United Kingdom: a survey	141
D. J. MAGIN. The maintenance of curriculum-development activities in government medical schools in Indonesia	148
J. M. MAHAN and SYLVIA SHELLENBERGER. Changes in students' perceptions of clinical teaching as a result of general-practice clerkships	155

WENDY D. SAVAGE and PAT TATE. Medical students' attitudes towards women: a sex-linked variable?	159
D. I. NEWBLE and KERRY JAEGER. The effect of assessment and examinations on the learning of medical students	165
R. J. MARKERT. Incremental validity of non-cognitive tests for medical school academic achievement	172
S. D. MOULOPOULOS, D. A. SIDERIS and P. E. VARDAS. Difficulty and discrimination capacity of examinations estimated on the basis of repeated student failure	175
D. A. SIDERIS, P. E. VARDAS and S. D. MOULOPOULOS. Admission process and final qualification of medical students	182
H. B. BENESTAD and J.-G. IVERSEN. Haemorrhagic and haemolytic anaemias in the rabbit: a clinically relevant laboratory project in physiology	186
J. L. PATER, A. D. GINSBURG and M. L. LOEB. The presence of distinct and stable skills among students assessed for clinical competence in oncology	193
Reports
